CORALPACK
CARRYING FORWARD YOUR NEEDS

About Us

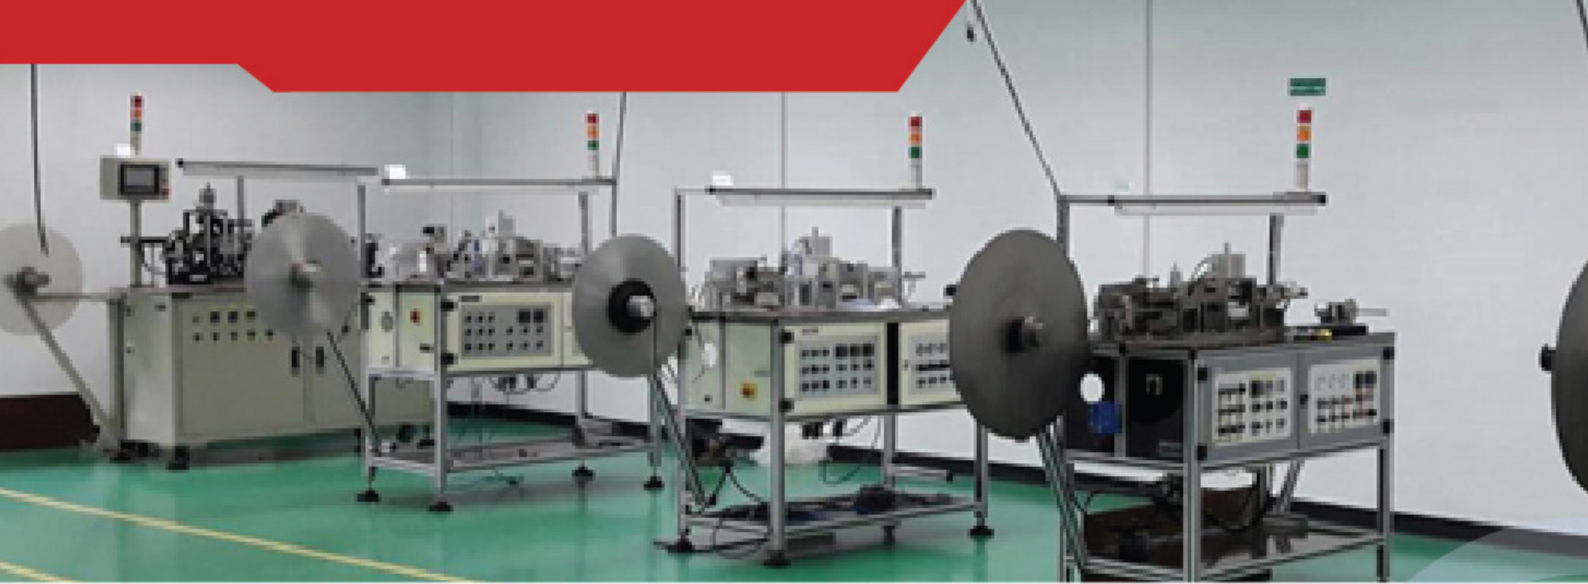

Coralpack Technology (Thailand) Co., Ltd. which is located in Thailand, is a manufacturer of electronic component packaging that serves the electronics and relevant industries.

Vision

"Turn out to be a Leader in electronic component packaging industry and revolutionize this organization to have the strength of a big company"

Mission

"To Enhance the excellence of Packaging by providing value added proficient Service".

Objectives

Committed to offer enhanced customer service in the electronics industry. Using our expertise in surface mount technology products, we always promote and deliver superior quality with competitive price.

Quality Policy

CORALPACK Technology (Thailand) Co., Ltd. recognizes the value of customer satisfaction in a competitive world and the major contribution is being made by the supply of

- Product
- Excellent service of an assured level of quality

CORALPACK Technology (Thailand) Co., Ltd. **will adopt a philosophy of continual improvement so, that the quality management system will be continuously evolving and reviewed and is relevant to the companys organizational aims and goals as well as meeting the needs and expectation of our customers.**

To achieve this, Coralpack Technology (Thailand) Co., Ltd. has committed to a quality assurance system based on the requirements of **ISO 9001:2015**

Our Products

Electronic Embossed Carrier Tapes

Coralpack offers a variety of EIA compatible carrier tapes to handle special packaging requirements for components in the electronics industry. Used in conjunction with a suitable cover tape, Our Carrier Tape serves as a reliable and convenient means of protecting and transporting electronic devices.

**Carrier Tapes have the Width range: 8mm ~72mm
Thickness range: 0.3mm - 0.5mm.**

The following are the material types:

- HIPS
 - > Black
 - > Clear
- APET

Cover Tapes

Coralpack offers a wide variety of industry leading Pressure Seal Adhesive (PSA) and Heat Seal Adhesive (HSA) Cover Tapes for use on most types of component sealing machines. Our Cover Tapes are available in adhere reliably to Coralpack Cover Tapes

The Material type of the Cover tape is APET.

**Cover Tapes have the width range:
5.3mm, 9.3mm, 13.3mm, 21.3mm, 25.5mm, 37.5mm & 49.5mm.**

Plastic Reel

Our plastic reels are available in a full range of conductive, static dissipative and anti static materials as well as multiple hub and flange diameters to provide maximum component protection whether customers are packaging semiconductors, connectors, passive components or non-electric components.

- The Flange Diameter: 7", 13" and 15" ■ The Hub Diameter: 4", 6" and 7"
- Width of the reel: 8mm - 72 mm ■ Colors available: Black, Blue & White.

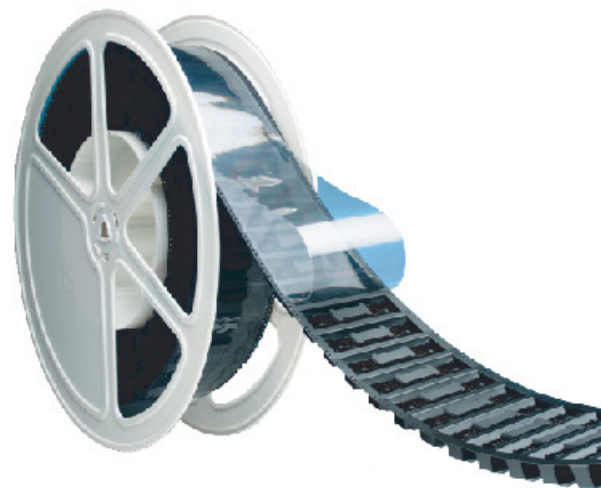

IC Tubes:

IC Tube is designed to protect chips from inner/outer damage during testing, inspection and transportation. IC Tubes are used for packing electric, electronic and communication device parts and transportation of semiconductor chips.

The following are the material types:

- HIPS
- PVC

And some of our IC Tubes used for Electronics industry are PLCC, SOIC, TSSOP, SSOP, MNSOIC and etc.

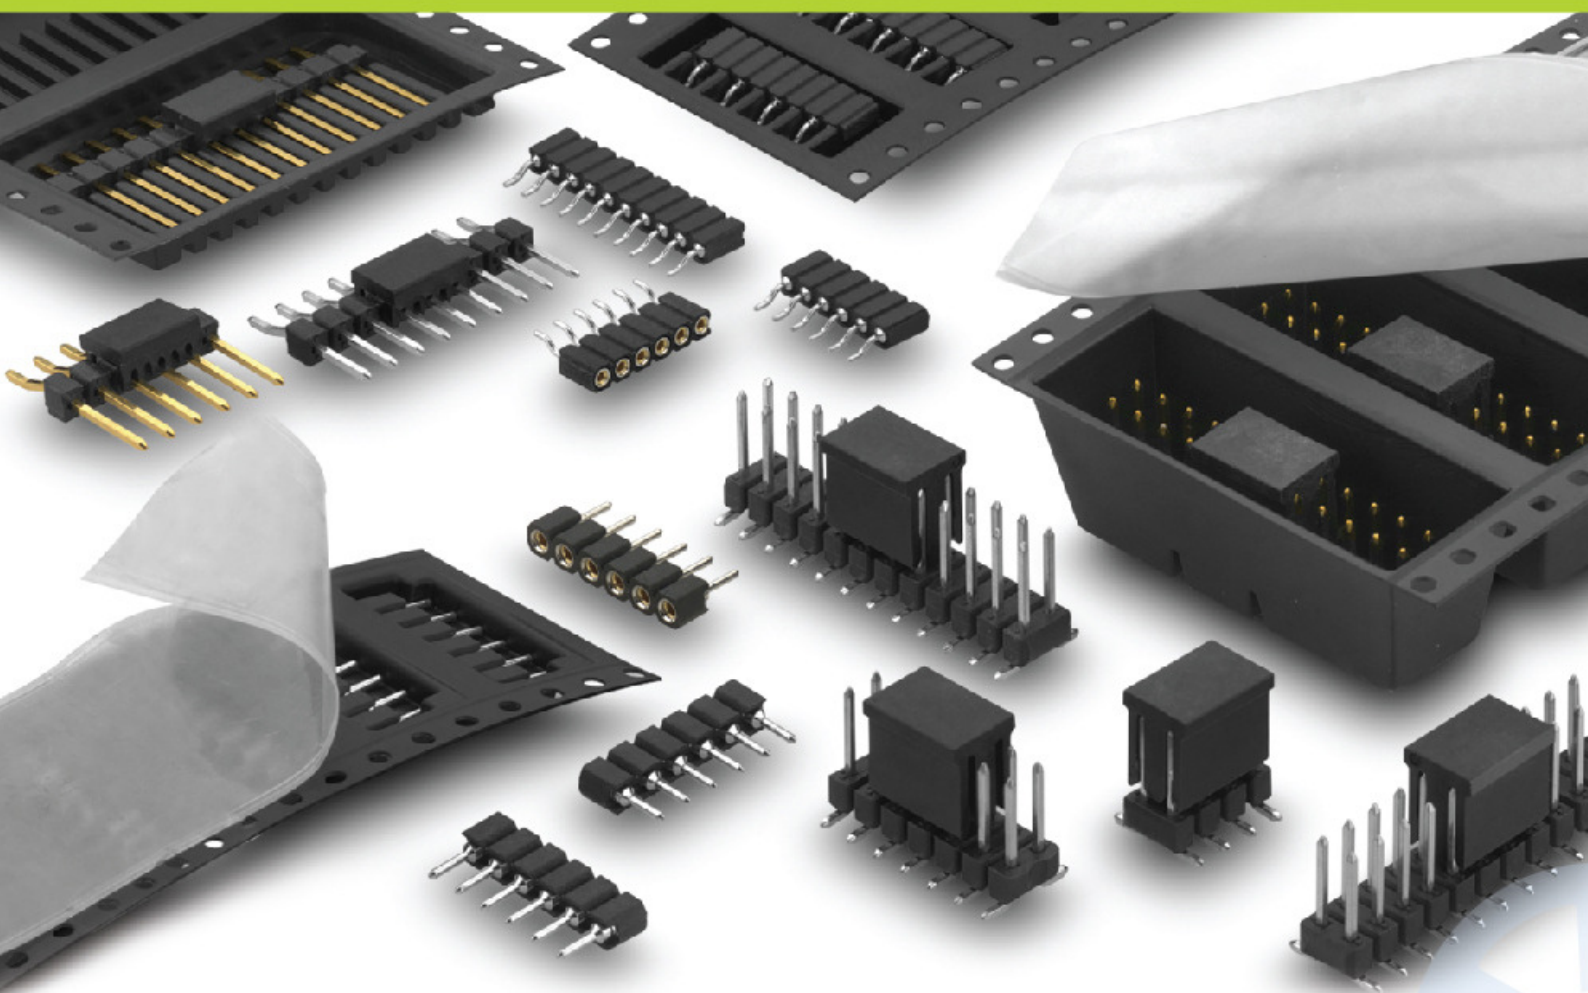

Vacuum form trays:

We have the wide range of vacuum form trays for packing and transpiration of electronic and semiconductor components. Vacuum formed trays can be custom made to any size, thickness and are constructed of various materials.

The following are the material types:

- HDPE
- ABS
- HIPS
- PET

Tape & Reel Services:

Our tape and reel services are supported where a range of carrier tapes are designed and manufactured from top quality, high specification base materials. Our in-house design expertise, custom tooling and material manufacturing capabilities ensure well defined, strong pocket formation including deep pocket forming.

Some of our open tool carrier tapes are mentioned below:

DEVICE TYPE	DEVICE QTY PER 13" REEL	METERS PER 13" REEL	TAPE WIDTH W	POCKET PITCH P	POCKET WIDTH Ao	POCKET LENGTH Bo	POCKET DEPTH Ko
SOT-23	6500	28	8	4	3.1	2.7	1.2
